Providing Complete Turnkey Solutions

We proudly feature the exceptional work of our Ft. Jackson team.

ADVANCED IT CYBER SUCCESS STORY

FT. JACKSON | CYBERSECURITY

Ft. Jackson Team:
Stellar System Management

From Risk to Resilience:
Initially: 83 C/H, 324 M, 58 L Vulnerabilities

This dedicated group has significantly elevated our system management, expertly handling ACAS, EMASS records, and vulnerability mitigation. Their expertise and diligence have led to remarkable improvements in our security posture. When we first took over, we faced 83 Critical/High Vulnerabilities, 324 Medium Vulnerabilities, and 58 Low Vulnerabilities.

However, through the team's relentless efforts, we've achieved an outstanding milestone of zero Critical/High, zero Medium, and zero Low Vulnerabilities in just a few months. This achievement underscores our commitment to robust cybersecurity and the exceptional talent within our team.

CURRENT STATUS:
Zero Vulnerabilities
Across All Levels

Proven Cyber Security Past Performance With experience in ACAS, EMASS, RMF Accreditation packages and Command Cyber Readiness Inspections (CCRIs)

DISA APPROVED Approved Products List for DoD Networks
